PROFESSIONAL SUMMARY

Full-stack web developer with 10+ years of experience building custom websites, web applications, and mobile apps for agency and direct clients. Proven ability to take projects from concept to launch — including open-source packages, Flutter mobile apps, and Laravel-powered platforms. Skilled communicator with a track record of long-term client relationships and mentoring junior developers. Seeking a remote role where deep technical range and client-focused delivery make a real impact.

EXPERIENCE

Senior Software Engineer

2026 – Present

Ekim941 · Durham, NC

- Designed and developed **ProTagaList** — a web and mobile Software as a Service (SaaS) app that keeps your tasks and notes in one place, connected by tags. Built with Flutter to be offline first and sync with a Laravel backend when internet connectivity is available.

Senior Web Developer

2020 – 2026

Bureau Gravity · Aurora, IL (Remote)

- Developed custom websites, web applications, and mobile apps for diverse agency clients across multiple industries.
- **Talking Cities -** Built a Laravel-based news platform with a companion Flutter/Dart mobile app communicating via a custom REST API.
- **Eco-fyle -** Engineered a full-featured business formation and management dashboard, handling complex state and user flows end-to-end.
- **TalkLab –** Built a Retrieval-Augmented Generation (RAG) AI using Python and AWS to integrate with the website built with Laravel and React JS.
- **Laravel Media Library package -** Authored and released a package used by developers to manage file uploads and media assets within Laravel applications.
- Earned a reputation for clear, jargon-free communication of technical limitations and opportunities with non-technical stakeholders.

Senior Web Developer

2012 – 2020

Rival Mind LLC. · Geneva, IL (Remote)

- Delivered 2–3 custom WordPress websites per month, building bespoke themes and plugins tailored to client needs.
- Advised clients and internal teams on technical capabilities, shaping project scope and reducing rework.
- Led initiatives to improve internal development processes and tooling, increasing team throughput.
- Mentored junior developers, conducting code reviews and providing hands-on guidance.
